

Spirit of St Nicholas Speech- Louis Adams

Somer Class have had another fantastic term so I would like to say well done to each of you, you have all worked very hard and made it very tricky for me to choose just one of you for this award!

The child I have chosen today though is somebody who has consistently given their best effort to each piece of learning with a continued drive to be better since they began their journey in Year 1.

This person found writing quite challenging when they returned to school in September, but they are now able to write in sentences with ease, remembering all their fingers spaces, capital letters and full stops. They show a fantastic enthusiasm to learn new things and always wish to demonstrate and further their knowledge.

He particularly enjoys maths and demonstrates an impressive understanding of number too. I am always very impressed with how quickly they can recall their number facts!

Their reading has also improved greatly, and this really shone through during our rehearsals and performances of our Christmas play. They delivered their lines beautifully!

I always notice the maturity they demonstrate among their peers and how well they can articulate themselves at such a young age. They demonstrate a nice sense of confidence and I know they will continue to make great progress.

He is a pleasure to teach and he should be very proud of all his efforts and achievements. With this I am very pleased to award the spirit of St Nicks this term to Louis Adams. Well done Louis!
